Skills

Programming Languages Python | JavaScript/TypeScript
Technologies React | Angular | Redux/Jotai | RxJS | Docker | Flask | Postgres | Redis | Celery
PyTorch | PyTest | Cypress | Sentry

Experience

Freelance Developer Mar 2024 - Present

Clai Studios

San Rafael, CA

- Consultation and development of Egoscue pain management web application. Built using NextJs, Firebase, Tailwind.
- Planned and developed marketing agency automation services. Including social platform schedulers, analytics, web scraping, and hiring process.

ML/Python/DS/NLP Engineering Intern Oct 2023 - Jan 2024

Tangible AI

San Diego, CA

- Gained hands-on experience in natural language processing, applying machine learning and data science tools.
- Developed a sequence-to-sequence neural network translator using numpy, PyTorch, and pandas.
- Final project: Developed and presented at Python User Group a vector-based search engine utilizing TF-IDF and BERT models. Was forked to create 'Knowt', an open-source RAG project.
- Technologies: Joblib, numpy, pandas, scikit-learn, sentence-transformers, spaCy, PyTorch.

Full Stack Engineer Jul 2021 - Oct 2023

Adelaide MRI

Adelaide, SA

- Developed a comprehensive suite of software products to support clinical practices at Adelaide MRI.
- Key project: RadReport, a radiology reporting system that significantly improved report accuracy, detail, and throughput with advanced data and image analysis.
- Additional projects: employee rostering, patient management, invoice management, web configurators, and booking systems.
- Technologies: Angular, RxJS, Docker, Redis, Flask, React, SQLAlchemy, Celery, PyTest, Cypress, Sentry, Jinja, Postgres.

Notable Projects

Deep Work Timer Jan 2024 - Present

Personal Project

- Developed a productivity tool inspired by Cal Newport's 'Deep Work,' designed to optimize focus tracking.
- Technologies: NextJS, Docker, AWS, Redis, Postgres, Jotai, GraphQL, Strawberry, FastAPI, SQLAlchemy
- View Project: [GitHub](#)

Portfolio May 2020 - Present

Personal Project

- Designed and developed a portfolio website showcasing my projects, services, and insights.
- Technologies: Next, Tailwind CSS, Framer motion, MDX, Vercel
- View Project: [Website](#)

Devarity Jan 2014 - Jun 2015

Indie Game Distribution Platform

- Developed an indie game distribution platform offering fairer profit margins and a unique customer experience, featuring over 50 games at launch.
- Technologies: PHP, MySQL, Python, Bootstrap, JQuery

Education

Bachelor of Mathematical Sciences Jul 2022 - Dec 2023

University of Adelaide

Adelaide, SA

- Accelerated linear algebra and calculus classes foundational for computer science and machine learning.
- 6/7 GPA, distinction avg.

Bachelor of Economics and Finance Mar 2018 - Nov 2020

University of Adelaide

Adelaide, SA

- Foundations in modern and classical economic theory.
- Financial modelling, statistics and data analytics.

International Baccalaureate (Years 11-12) Jan 2014 - Nov 2016

St Peter's College

Adelaide, SA

- 95 ATAR (95th percentile state-wide).
- Developed critical thinking and analytical skills across diverse subjects.
